

Grossmont Community College Health / Sciences Complex

The Health / Sciences Complex at Grossmont Community College serves the laboratory, classroom and faculty offices area needs for the Health Professions Department, Physics Department and the Crime Forensics program from the Administration of Justice Department.

The two-story 54,200-square-foot building is set into a hillside at the perimeter of campus to allow grade level access to both levels. The building organization splits into a laboratory wing and a classroom / office wing with a courtyard and lobby space between. The courtyard and lobby bring the students together for classroom access and provides opportunity for interaction, group study and outdoor science labs.

The health profession laboratories include Cardiac Catheterization, Electro Cardiogram, Ultrasound, Respiratory Therapy and High Tech Respiratory Therapy, General Nursing, Nursing Simulation Lab, Intensive Care Unit Lab, Medical Surgical Nursing Lab, Occupational Therapy Lab and Orthopedic Tech Lab.

PROJECT STATS

Owner: Grossmont-Cuyamaca
Community College District

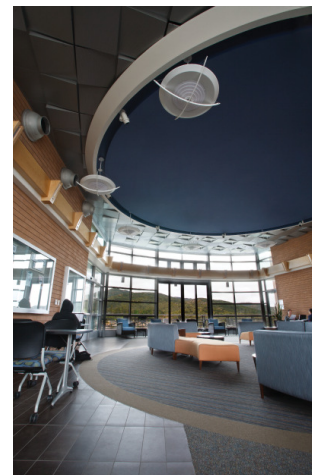

Location: El Cajon, California

Construction Cost: \$24,600,000

Initiation / Completion Dates:
Design began in 2007
Construction completed in 2010

Size: 54,200 sq. ft.

Key Staff: Bill Magnuson, AIA
Dan Dominik
